Narnoo Integration Screenshots Documentation

Overview

The following are screen shots from the Narnoo Portal as well as examples of integration into existing websites.

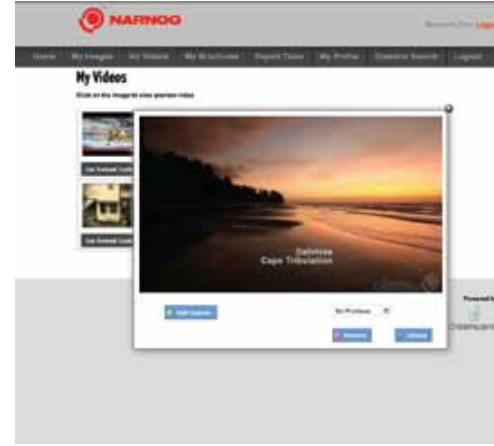

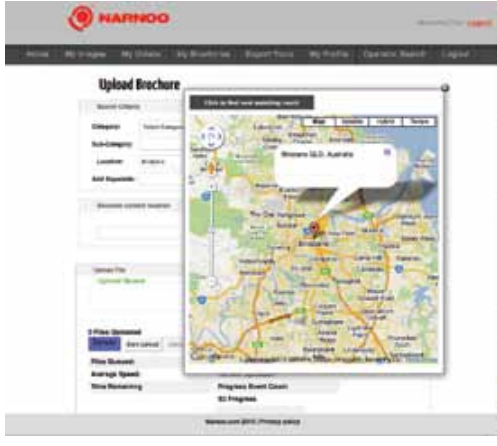

Requirements

A Narnoo.com account

Uploaded content or a populated list of operators - Needed so that a distributor can display an operator's content.

Examples

This document contains a number of examples. These examples show the different number of ways to render the content on a site page. These example pages have basic styling so that the emphasise is on how the content is rendered in a browser window and not the page itself.
