- 8MB/S Bit Rate
- 720P

BROCHURES

Accepted Formats:

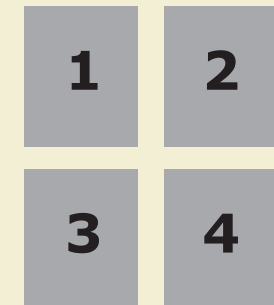

- *.pdf;

Maximun File Size:

10MEG

PDF Format:

All brochures need to be formatted into pages order of the brochure. The system takes each page of your PDF and processes the information for formatting the brochure. If you do not have your brochure in page order, the system will not format the brochure correctly.

Narnoo will update our media processing details as new formats become standard.
